BUCKLE COVER

A seatbelt buckle cover is used to prevent an individual from undoing a seatbelt

What is the function of **Seatbelt Buckle Cover**?

It prevents the seatbelt release button from being pressed. This is an effective solution for children and adults with behaviours of concern whilst the vehicle is in motion.

FEATURES

- Simple design - Discreetly seen
- Universal fit - works in most vehicles
- Easy to use for parents, guardians and carers
- Designed to be undone using any vehicle key

KIT CONTENTS

Each kit comes with:

- Buckle Cover
- Buckle Cover Sticker
- Seatbelt Cutter
- Seatbelt Cover sticker
- Set of instructions

Additional stickers are available at a small cost

Our **Seatbelt Buckle Cover** meets the requirements of the Australian Standards, and fits onto seatbelt buckles of most cars.

We also stock buckle covers for some of our harnesses, and also are able to customise a buckle cover to suit your vehicle specifications if our universal design does not fit.

BENEFITS

- Keeps the passenger safely secured in the vehicle
- Provides the driver with peace of mind whilst the vehicle is in motion
- **Seatbelt Buckle Covers** are transferrable between vehicles

It is a requirement to keep a current Doctors Certificate in your vehicle when this harness is in use.
