CARFIX 5-POINT SEAT HARNESS

The **Carfix 5-Point Seat Harness** is a behavioural and postural support harness for those with limited upper body strength and support.

What is the function of the **Carfix 5-Point Seat Harness**?

The 5-point harness is used to ensure the occupant is in the correct position for the vehicles seatbelt to work correctly. This product uses a front buckle with easy adjustable shoulder straps to help evenly distribute the load of the occupant and makes the harness easy to use.

The **Carfix 5-Point Harness** is to be used in accordance with the vehicle's original seat and seatbelt; meaning it can be installed into a variety of vehicles without any modifications.

Our harnesses are quick to install and can be easily transferred from across vehicles.

FEATURES

- Universal behavioural and postural belt system that can be used in any seat
