CAR SAFETY

Kidsafe Qld Inc

Original developed by Kidsafe Victoria and the Victorian Department of Health

- Keep your child in the right seat for their size. The shoulder height marker will tell you when they are big enough to change seats.
- Every time you put your little one in their seat, check that everything is buckled up and fits them properly
- Never leave children alone in a car – it can get really hot and make them sick
- Driveways can be very dangerous places for children. Find a safe place for little ones to play away from the driveway and always walk around your car and check before reversing.
